

## Mixing Lit Support Packages to Build a "Comprehensive" System Can Create a Clumsy Beast.

There are cobbled together litigation support systems available that claim to let you manage realtime, transcripts and document databases. But they might not always work smoothly. Or work together at all.

That's why we took an integrated approach from the beginning.

### True Integration Since 1988

Summation provides all the core elements you need to make your case – *Interactive Realtime*, *Transcript Manager*, *Structured*

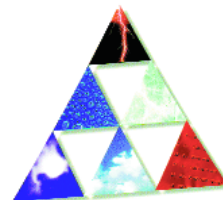

Summation has swept the industry's awards for litigation support – including *Law Office Computing's* "Reader's Choice" award for five years running!

*Database*, *Robust Image Viewer* (mark-ups and many formats), *Brainstorming Platform* (the Case Organizer), and tools for

copying case data and synchronizing work product. All in one easy-to-use package.
