Today's global marketplace provides enormous opportunity--as well as the challenge of navigating through a multilingual and multicultural world. With a broad array of translation services and solutions, Mendez enables clients to rapidly reach new markets, enhance international workforce collaboration, and embed automated translation into a range of applications.

### Corporations & Institutions

Whether you want to launch a multilingual web site, place your products in new markets, or improve operations among international offices, Mendez can show you the way.

- [Developers](#)**  
 Mendez's software development kits enable developers to integrate the most sophisticated translation technology into enterprise systems, web applications, and eBusiness platforms.
- [ISPs & Portals](#)**  
 By embedding multilingual tools in your site, you can add new customers, increase site traffic, and stand out from the competition.
- [Solution Providers](#)**  
 Help your clients become truly global by integrating the best translation technology into their systems, including Lotus Notes and Domino with Mendez™ iTranslator™ Enterprise.
- [Professionals & Small Businesses](#)**  
 Small businesses and professionals can draw on the same translation technology and services used by many of Fortune 500.

### Order Translations Online

Online--anytime--you can order translations of your documents. With Mendez™ iTranslator™ Online, you can choose machine translation for high-speed, gist-level translations of short documents or traditional human translation for high-quality translations of longer documents.
